Profile

Quality assurance engineer with over two years of experience in software and web QA, covering visual quality, frontend designs, animations, copy accuracy, and end-to-end user flows. Brings a Laravel and React/TypeScript development background to reviewing interactive interfaces.

Experience

Quality Assurance Engineer **Aug 2024 - Oct 2026**
EARN Books NZ

- Performed quality assurance for software and web applications, reviewing both frontend presentation and user-facing functionality.
- Reviewed frontend designs for visual quality, consistency, and usability.
- Checked interface text for typos and presentation issues affecting clarity and overall polish.
- Reviewed animations for visual quality and consistency within the user experience.
- Tested end-to-end user flows to identify issues across complete interactions and multi-step journeys.

Junior Web Developer **Dec 2023 - Jul 2024**
Beth Aven
Tech Stack: PHP, Laravel, MySQL, REST APIs, JavaScript, Git

- Contributed to an e-commerce website through backend feature development and supporting integrations.
- Helped implement server-side functionality for smoother shopping and site management workflows.

Technical Skills

Quality Assurance: Software and web QA, visual review, frontend design checks, animation review, typo detection, end-to-end user-flow testing

Frontend: React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, ShadCN, TanStack Query, React Hook Form, Zod, Zustand

Backend: PHP, Laravel, REST APIs, validation, auth/access control, testing, Node.js, Express.js, Python

Data & Tools: MySQL, PostgreSQL, SQL, Git/GitHub, Docker, Vite, JWT, LaTeX, MATLAB

Core Strengths

Attention to visual detail and interface quality; reviewing complete user journeys; understanding frontend, backend, and API interactions; collaborative development and product-quality focus.

Education

B.S. Applied Physics Aug 2020 – Jul 2024
University of Santo Tomas
